ALUMERO

## BENEFITS OF ALUMINIUM

- + Low weight  
(1/3 of the weight of steel)
- + Excellent material strength
- + Corrosion resistant
- + High class appearance
- + Easily reshaped
- + Easily processed
- + Extremely long life expectancy
- + Reflects light
- + Environmentally friendly  
and recyclable

People want to feel well wherever they are.  
If they are furnishing a new home, what could  
be better than something modern, stylish and  
of superior quality?

**AL says: After all, I want to feel good !**

IT'S GREAT TO BE HOME.

## ALUMERO – YOUR OEM

ALUMERO assists in the development and manufacture of a wide range of aluminium products, particularly for the furniture industry. As an OEM, as well as producing aluminium extrusion elements we also provide mechanical processing services, surface treatment, sizing and logistics. We aim to create benefits for our customers by offering effective and economical solutions.

**We make sure you stay ahead.**

## EVERYTHING FROM A SINGLE SOURCE

Straight from the  
manufacturer!

### YOUR BIG ADVANTAGE

- + Excellently qualified staff
- + In-house planning and construction office
- + From the prototype to serial production
- + Customised solutions
- + Professional, modern machine park
- + High quality processing and surface finishes
- + Quick response times, short and flexible order handling times
- + Punctual delivery and flexible logistical concepts
- + Component group production using internally and externally produced parts

## AREAS OF USE

- + Kitchens
- + Bedrooms
- + Living rooms
- + Bathrooms
- + Office
- + Hotel/office construction
- + Boat building
- + Shop fitting
- + Caravan fitting
- + Hi-fi/Home entertainment
- + Lighting industry
- + Shop shelf refrigeration systems
- + Camping/Gardens

## ALUMINIUM – THE MATERIAL WITH A FUTURE

As well as the numerous technical benefits, there are also aesthetic reasons for using aluminium elements in the furniture industry. Aluminium offers designers and product developers almost endless possibilities.

**We put your designs into practice – exactly the way you imagined them.**

## A STRONGER PROFILE FOR YOUR FURNITURE

Having our own extrusion presses allows us to specialise in the production of furniture elements with excellent surface qualities and exactly calculated tolerances.

- + Guide and slide rails
- + Handle extrusions
- + Frame elements
- + Niche system profiles
- + Connector parts for work surfaces
- + Edges for fronts and work surfaces
- + Special elements for caravans
- + Cover extrusions
- + Decorative trim strips
- + Body and corner connecting extrusions
- + CD and DVD boards
- + Shower cabin profiles
- + Shutter profile elements
- + Profile for fittings technology
- + Special extrusion shapes for the lighting industry
- + Customised solutions

## HANDLES & GRIPS

ALUMERO aluminium grips are the products of top quality processing. All raw cut edges are either milled or carefully brushed using modern deburring machines. Then a surface is treated piece-by-piece to make sure the edges are optimally protected. As well as producing standardised grips, ALUMERO also produces elements according to customer requirements. After all, putting your ideas into practice is our mission!

## YOUR BIG ADVANTAGE

- + Modern design
- + Precise processing
- + Individual surfaces
- + Various surfaces available
- + Straight from the manufacturer  
(from extrusion to processing –  
from a single source)
- + Reliable suppliers

## AVAILABLE SURFACES

- + Anodised
- + Stainless steel effect
- + Chrome coating
- + Sand blasted
- + Powder coated
- + Chemical gloss finish
- + And many more

## DELIVERED AS:

- + Standard delivery in cardboard boxes
- + Packaged according to customer  
requirements if arranged in advance

## GLASS DOOR FRAMES & FRAME ELEMENTS

Aluminium glass frame systems can be found in a wide range of environments: in living rooms, kitchens, bathrooms and offices. Simple, timeless designs give your furniture its very own elegance.

Aluminium frame doors are currently very popular and are very versatile in terms of functionality. They can be installed as folding, rotating, double or sliding door variants.

### YOUR BIG ADVANTAGE

- + Timeless elegance
- + Straight from the manufacturer (from extrusion to processing – from a single source)
- + Reliable suppliers
- + Perfect processing

### DELIVERED:

- + Cut-to size with glass ready for installation
- + Pre-cut and processed element packaged in a box
- + Cut-to-order, processed or unprocessed, surface treated extrusion according to customer drafts

### ACCESSORIES

- + Corner pieces
- + Screws
- + Sealings
- + Rattle prevention

## FURNITURE SUPPORT STRUCTURES & BASES

Feet, bases and support structures allow your furniture to stand on solid foundations. ALUMERO manufactures bases and underframe supports exactly according to customer instructions.

This simple system enables the customised construction of shelves, table support frames, and walls etc. Profile ends can also be closed with height-adjustable or non-adjustable caps, if required.

## FRAME & COMPONENT GROUP MANUFACTURE

ALUMERO offers complete professional package solutions for frame and component group manufacture. Our modern manufacturing techniques enable us to assemble complex, custom-built structures. Whether production takes place with internally or externally manufactured components, ALUMERO's range of options includes everything from the production of individual components through to the making of a final product.

If required, we can also take on responsibility for all the logistical aspects of a project, including the acquisition of materials and final inspections.

Blasted

Stainless steel effect

Powder coated

Silver anodised

Ultra-shiny chrome coating  
or shiny anodised

## SURFACE FINISHES

Professional surface treatment guarantees perfect protection. Our wide range of surface treatments allows us to offer a wide variety of creative design options.
